

WHY NOT A FIGHT?

Wrestlers Argue Over Order of Tomorrow Night's Bout.

Blackley Demands That He Appear in Main Event.

The announcement that Cliff Blackley, the Ohio state champion, and John Grandavich would wrestle a preliminary to the Eustace-Gohar match at the auditorium Wednesday night is causing promoter Harper Rigby considerable worry. Blackley, who has appeared in Topeka before and is very popular with local mat fans, says he doesn't propose to appear in the opening role tomorrow night, demanding instead that his go with Grandavich be booked as the main event.

Rigby admits that it is a hard matter to settle inasmuch as both bouts are of championship caliber but hopes to reach an agreement with the grapplers at a conference to be held today.

Grandavich is Here. Grandavich, the Dalmatian heavyweight, arrived in Topeka Monday night. The young foreigner looks fit and says he is ready for the struggle. This battle between Blackley and Grandavich should bring out some real lively wrestling. Grandavich weighs 235 pounds and is one of the strongest and most aggressive men in the heavyweight class, and one of the few present day wrestlers who favors the use of the bar hammerlock hold.

A grip which was used by the late champion, George Hackenschmidt. It was with the use of this hold that Hackenschmidt was able to win the world's wrestling title, which he held for nearly twelve years. His first defeat came when he met Cutch in this country. Grandavich will have an edge on Blackley when it comes to

weight but the Ohio lad says he will be able to take care of himself.

Gohar Has Novel Training Diet. Gohar, the Hindu champion, who meets Alan Eustace in what has been referred to as the feature bout of the evening will complete his training today. Gohar is a giant in size and garbed in native costume, has created much comment since his arrival in Topeka. The Hindu feels confident he can win over Eustace but the supporters of the popular Kanman are sitting tight. Gohar will give a demon-

stration today of his training diet by partaking of some gold leaves and pearl dust at one of the local restaurants. This most unusual training diet, which is taken by all Indian grapplers to produce endurance and strength, plays an important part in the training period of the Hindu.

With three of the wrestlers on tomorrow night's card already in town interest in the event has taken a jump. Seats for the double performance are going fast, Rigby says.

DEMPEY SAILS FOR ENGLAND. Idea That He Will Fight Harry Wills Scouted by Champion.

New York, April 11.—Jack Dempsey, the world's champion, accompanied by Jack Kearns, his manager, Joe Benjamin, the lightweight, and the rest of his official family, sailed on the Aquitania today for England. Before departing, Dempsey reiterated that he had no definite assurances of matches abroad with Beckett, Carpenter or other foreign heavyweights. He also scouted the idea that he would fight Harry Wills, the negro, on the other side.

The champion will be gone from two to three months, depending on the financial success of the venture. He said he meant to visit France, if possible, and while there be the guest of Georges Carpentier, his little rival of the "battle of the century" at Jersey City last July.

White Sox On Home Grounds. Chicago, April 11.—The White Sox, home from their spring training tour, will work out on their home grounds today in preparation for the opening game of the season against the St. Louis Browns tomorrow. Judge K. M. Landis, baseball commissioner, and other notables will attend the opening game.

BALL TO KEEP UP

So-Called National Sport To Stay as College Game.

Fred Clarke, Now at K. U. Gives Views to Squad.

Lawrence, Kan., April 11.—Baseball will remain a college sport. This is the belief of Fred Clarke, manager of the Pittsburgh National League ball club for fifteen years, who is at the university assisting Coach George "Potsy" Clark in rounding out a winning Jayhawk baseball aggregation.

"There has been much talk in college circles to the effect that baseball is not properly a college game, because it is commercialized to such an extent nationally," the former manager said, speaking to the Jayhawk squad. But Clarke holds that such an argument will not stand up and that baseball will continue to be popular in colleges and will not be superseded by track.

"Baseball is the national game," Clarke said. "It has a place in college as much as any sport. It develops skill in the player, gives him courage and teaches self control and broadens the mind. What more can or does any other sport do?"

Clarke came to Lawrence to devote a week or two to the Jayhawk team as a result of a promise he made while here on a visit during the winter. He came to Lawrence direct from Arkansas where he aided the Pittsburgh club during spring practice. Clarke now lives at Winfield, Kan.

TRACK CHAMPS WILL RACE

Paddock and Murchison To Battle for All Distances Walsli Says.

BY DAVIS J. WALSH.

New York, April 11.—Just by way of settling a long standing debate, Charley Paddock and Loren Murchison, the most hurried individuals now striding a cinder path, are to meet in a series of races ranging in distance from 50 yards to the furlong.

This we have been given to understand by men who keep an index finger on the pulse of a mature athletics. The proposition is being pushed by members of the Illinois Athletic club, Murchison's home club, and the challenger, it is said, has found Paddock in a receptive attitude. A neutral track would be the scene of this

spiked shoe novelty, a backwash of a rivalry that dates back to the final heat of the 100 meter dash at the Olympic games.

Murchison never will forget that incident if he lives to be as old as an alligator's grandfather. Six men were on the marks for the race, namely, Paddock, Murchison, Scholz and Kirkee, Coach Dwight T. Reams and the British negro, and Ali Kahn, of France.

They had been given the word to get down and then the "set" when a clerk of the course called to Paddock that his hands were encroaching on forbidden ground.

Schedule of Eight Games Arranged by Ichabod Baseball Nine.

Seventeen men at Washburn college here are candidates for the Ichabod baseball nine. Coach Dwight T. Reams reports. Work will begin in earnest as soon as weather conditions permit.

A tentative schedule of eight games has been arranged by Coach Reams and it is expected that other games will be added before the season gets under way. The Ichabods had decided not to put a baseball team in the field this spring, but the matter was reconsidered and plans changed.

How U.S. Royal Cords Compete for Business

HERE are nearly 200 tire manufacturers who would like very much to sell your car-owning neighbor his next tire. This interests him but mildly.

Price arguments are thread-worn. Claims and promises have the same old ring.

The makers of U.S. Royal Cords do not claim to be exempt from the great law of competition. But it is their firm belief that the time is here for a new kind.

No manufacturer and no dealer can much longer evade the challenge of progress.

The competition taking shape today was forecast many years ago in the U.S. Policy—the policy that makes U. S. Tires, at today's prices, the biggest money's worth

any motorist ever rode upon. What is this new kind of competition?

It is the working for more and more public confidence—for higher and higher quality—for still more constant public service.

The car-owner can vision for himself the benefits of this kind of competition.

No one welcomes it more sincerely than the makers of the U. S. Royal Cords.

For the production of United States Tires there is erected and operating the greatest group of tire factories in the world.

A leadership that has recorded itself with the public. The outstanding example of what faithful quality and sound economy can do when it is patient enough to prove itself to a whole nation.
